Yazaki receives renowned Quality Award

The European Society for Quality Research (ESQR) with its Headquarters in Lausanne, Switzerland, awarded Yazaki with the European Award for Best Practices 2016.

With the award the organization recognized Yazaki's outstanding commitment and results in the area of Quality Management Strategies at Yazaki. Alexandra Lacerda, Head of Central Quality at Yazaki Europe Ltd., accepted the award.

The awarding ceremony took place on 4th June 2016 at Hotel Le Plaza in Brussels. Top companies, public administrations and organizations, which excel in their services/products and continue to push the limits of Quality with innovation, received the European Award for Best Practices 2016 for their hard work and achievements, in the presence of the international business community.

The European Awards for Best Practices program takes a comprehensive look at the initiatives and strategies that business leaders implement in their companies and organizations; it recognizes the efforts of exceptional and talented employers and employees and provides motivation for continuous progress.

Plant opening ceremony of Yazaki Morocco Meknes

A ceremony was held by Yazaki for the plant opening in Morocco which marks another milestone of the company's growing presence in North Africa.

Dr. Horst Rudolph (Präsident and CEO of Yazaki Europe Ltd.), Uran Zaman (COO of Yazaki Europe Ltd.) and Moulay Hafid Elalamy (Minister of Industry, Trade, Investment and Digital Economy) performed the official ceremony.

At the end, the board members planted trees in front of the new plant.

Yazaki Europe Ltd. is now present in five different cities in Morocco and contributes to the

development of these regions with the introduction of new high-tech equipment and the creation of new work places for direct productive operators and technical specialists.
Strong contribution to the success of the Industrial Acceleration Plan (PAI) is launched by the Ministry of Industry: The Development of Automotive Ecosystems. Thanks to the Yazaki plant in Meknes, a new automotive hub is created as other companies and competitors will follow.

Start of construction for new plant in Bulgaria

Yazaki launched the construction of a 50 million euro car parts plant in Bulgaria, the third in the country.

Speaking at the ceremony, economy minister Bozhidar Lukarski said he hopes that the investment would lead to the opening of other supporting production facilities, which would spur the development of the local economy.
The plant will be located near the town of Dimitrovgrad, in southeastern Bulgaria, and will create around 3,000 jobs.
In June, Yazaki Bulgaria contracted the local firm Horizont-Ivanov to purchase the land and build the plant, which will be leased to Yazaki.
Yazaki already operates two plants in Bulgaria – in Yambol and Sliven, also in the southeast of the country – with a staff of over 5,000.
In southeastern Europe, Yazaki also operates plants in Romania and Croatia which makes the company an important employer in the respective regions.
